

Winter Pupdate

Name

Jaxx

2016

Young Jaxx sometimes seems aloof... but perhaps he just feels important, knowing he has a critical job ahead of him!

He is working on willingness, response and motivation and dog distraction. Jaxx is paired with an older training buddy and, together, they are discovering new social environments.

Jaxx already has an understanding of the commands sit, down, wait and stay.

He enjoys his fortnightly puppy classes with his brother Comet and furry friend Gully.

And they all love the puppy enrichment area: scrambling up and down small sets of stairs, trying out new surfaces and scampering through tunnels.

You probably don't realise, Jaxx, that all that fun is cleverly building your confidence and preparing you for your training and that important role ahead of you. And we have confidence in you too, Jaxx!

Many thanks to the Think Fragile X Foundation for your much appreciated support of Jaxx and our Guide Dog program.

 This year, 14 Guide Dogs in training posed as su-PAW-models for the 2017 Coles Guide Dogs WA Calendar. **Could one of them be yours?**

From 1 November, you can pick one up for just \$8 from any Coles across WA. And don't forget—we'll be showing sneak peeks on our [website](#) from late October!
