WA

Name

Jaxx

Autumn

Jaxx is a happy, affectionate boy. He is keen and motivated with a good level of willingness to work.

At this stage of his training he is beginning to learn how to work more independently. Jaxx is learning tasks such as 'find the chair' – a chair, park bench or bus stop bench, locate control boxes for pedestrian crossing and how to safely deal with moving traffic. He is learning to show initiative, make decisions, how to avoid obstacles and to ensure there is enough clearance for his handler. Keep up the good work Jaxx!

Jaxx enjoys going to new places, and new routes are being used to maintain his motivation. He loves going on the train as he can take a nap and he is getting used to going on the bus – also a good place for a nap! Keep up the good work Jaxx – sure and steady is a great way to learn!

Jaxx loves Nylabones and soft toys. He likes to wind down after a walk by taking his bone to a soft bed and chewing until he falls asleep. He enjoys cuddling up to Guide Dog in training Dolly on the same bed – but usually ends up accidentally pushing Dolly off the bed! His favourite playmates are Guide Dogs in training Dolly and Cheezel.

Thanks to Think Fragile X Foundation for your much appreciated support of Jaxx and our Buddy Dog for Kids Program.
